**Greensted Infant School & Nursery**
**Sports Premium money 2018-19 & 2019-20**

**Sport Premium money received academic year 2018-19= £17,200.**
**The same amount is expected in the academic year 2019-120.**

The money is being spent on providing high quality Physical Education sessions lead by qualified Sports Coaches, which the teachers will observe, therefore offering ongoing continuous professional development, and ensuring a highly trained staff going forward. By receiving high quality PE teaching, the children will also become more engaged in their PE sessions, thus enthusing them to participate in more after school clubs and sport outside of school. This provision will continue.

The remaining carryforward money will be spent on sports, PE and playground equipment to encourage active participation at playtime, lunchtime and during PE lessons.

The Sports Coaches, and school staff, also run after school clubs, which are well attended, and often over-subscribed, across the school year.

Every Summer term, we have a whole School Sports Morning, which all of the Infant School participates in. The children are grouped into teams with children from each class working and competing together. There are a number of sporting challenges which the children enjoy whilst scoring points, and the winning team is announced at the end of the morning. The event is much enjoyed by parents, staff and children!
In 2018, we introduced competitive races with the fastest girls and boys from each class competing.
The Nursery hold their own Sports event, with the children competing in a range of races.

**Impact:**
The number of children participating in Clubs is high – 75% of clubs are full. Historically this percentage has been lower with just the Cheerleading Club 'Go-Gos' being full (25%). The clubs are often run by personnel who teach the children the curricular sports and this encourages participation.

Children are more actively engaged in physical activity in the playground than previously, particularly during the longer lunchtime break. Midday assistants are actively playing with the children and incidents of poor behaviour less frequent as children practise taking turns and developing sporting behaviours.

Children's confidence and self-esteem enhanced through participation in high quality PE provision and active lunchtimes. 100% of children in the Pupil Perception (July 2019) were able to identify ways of keeping healthy, including participating in sport and physical activity.

In July 2018, we ran a Sponsored Event through Sports for Schools. A British athlete, Gianni Frankis, came into School and ran a sponsored training session with all of the children. The event raised over £800 in sports equipment for the school, as well as inspiring our children. This event with Sports for Schools will be repeated in the future.
